Isokern B-Vent (IBV) Series

Applications

- indoor
- outdoor
- custom finish
- residential
- commercial
- combustible floor installation

Venting & Fuel Sources

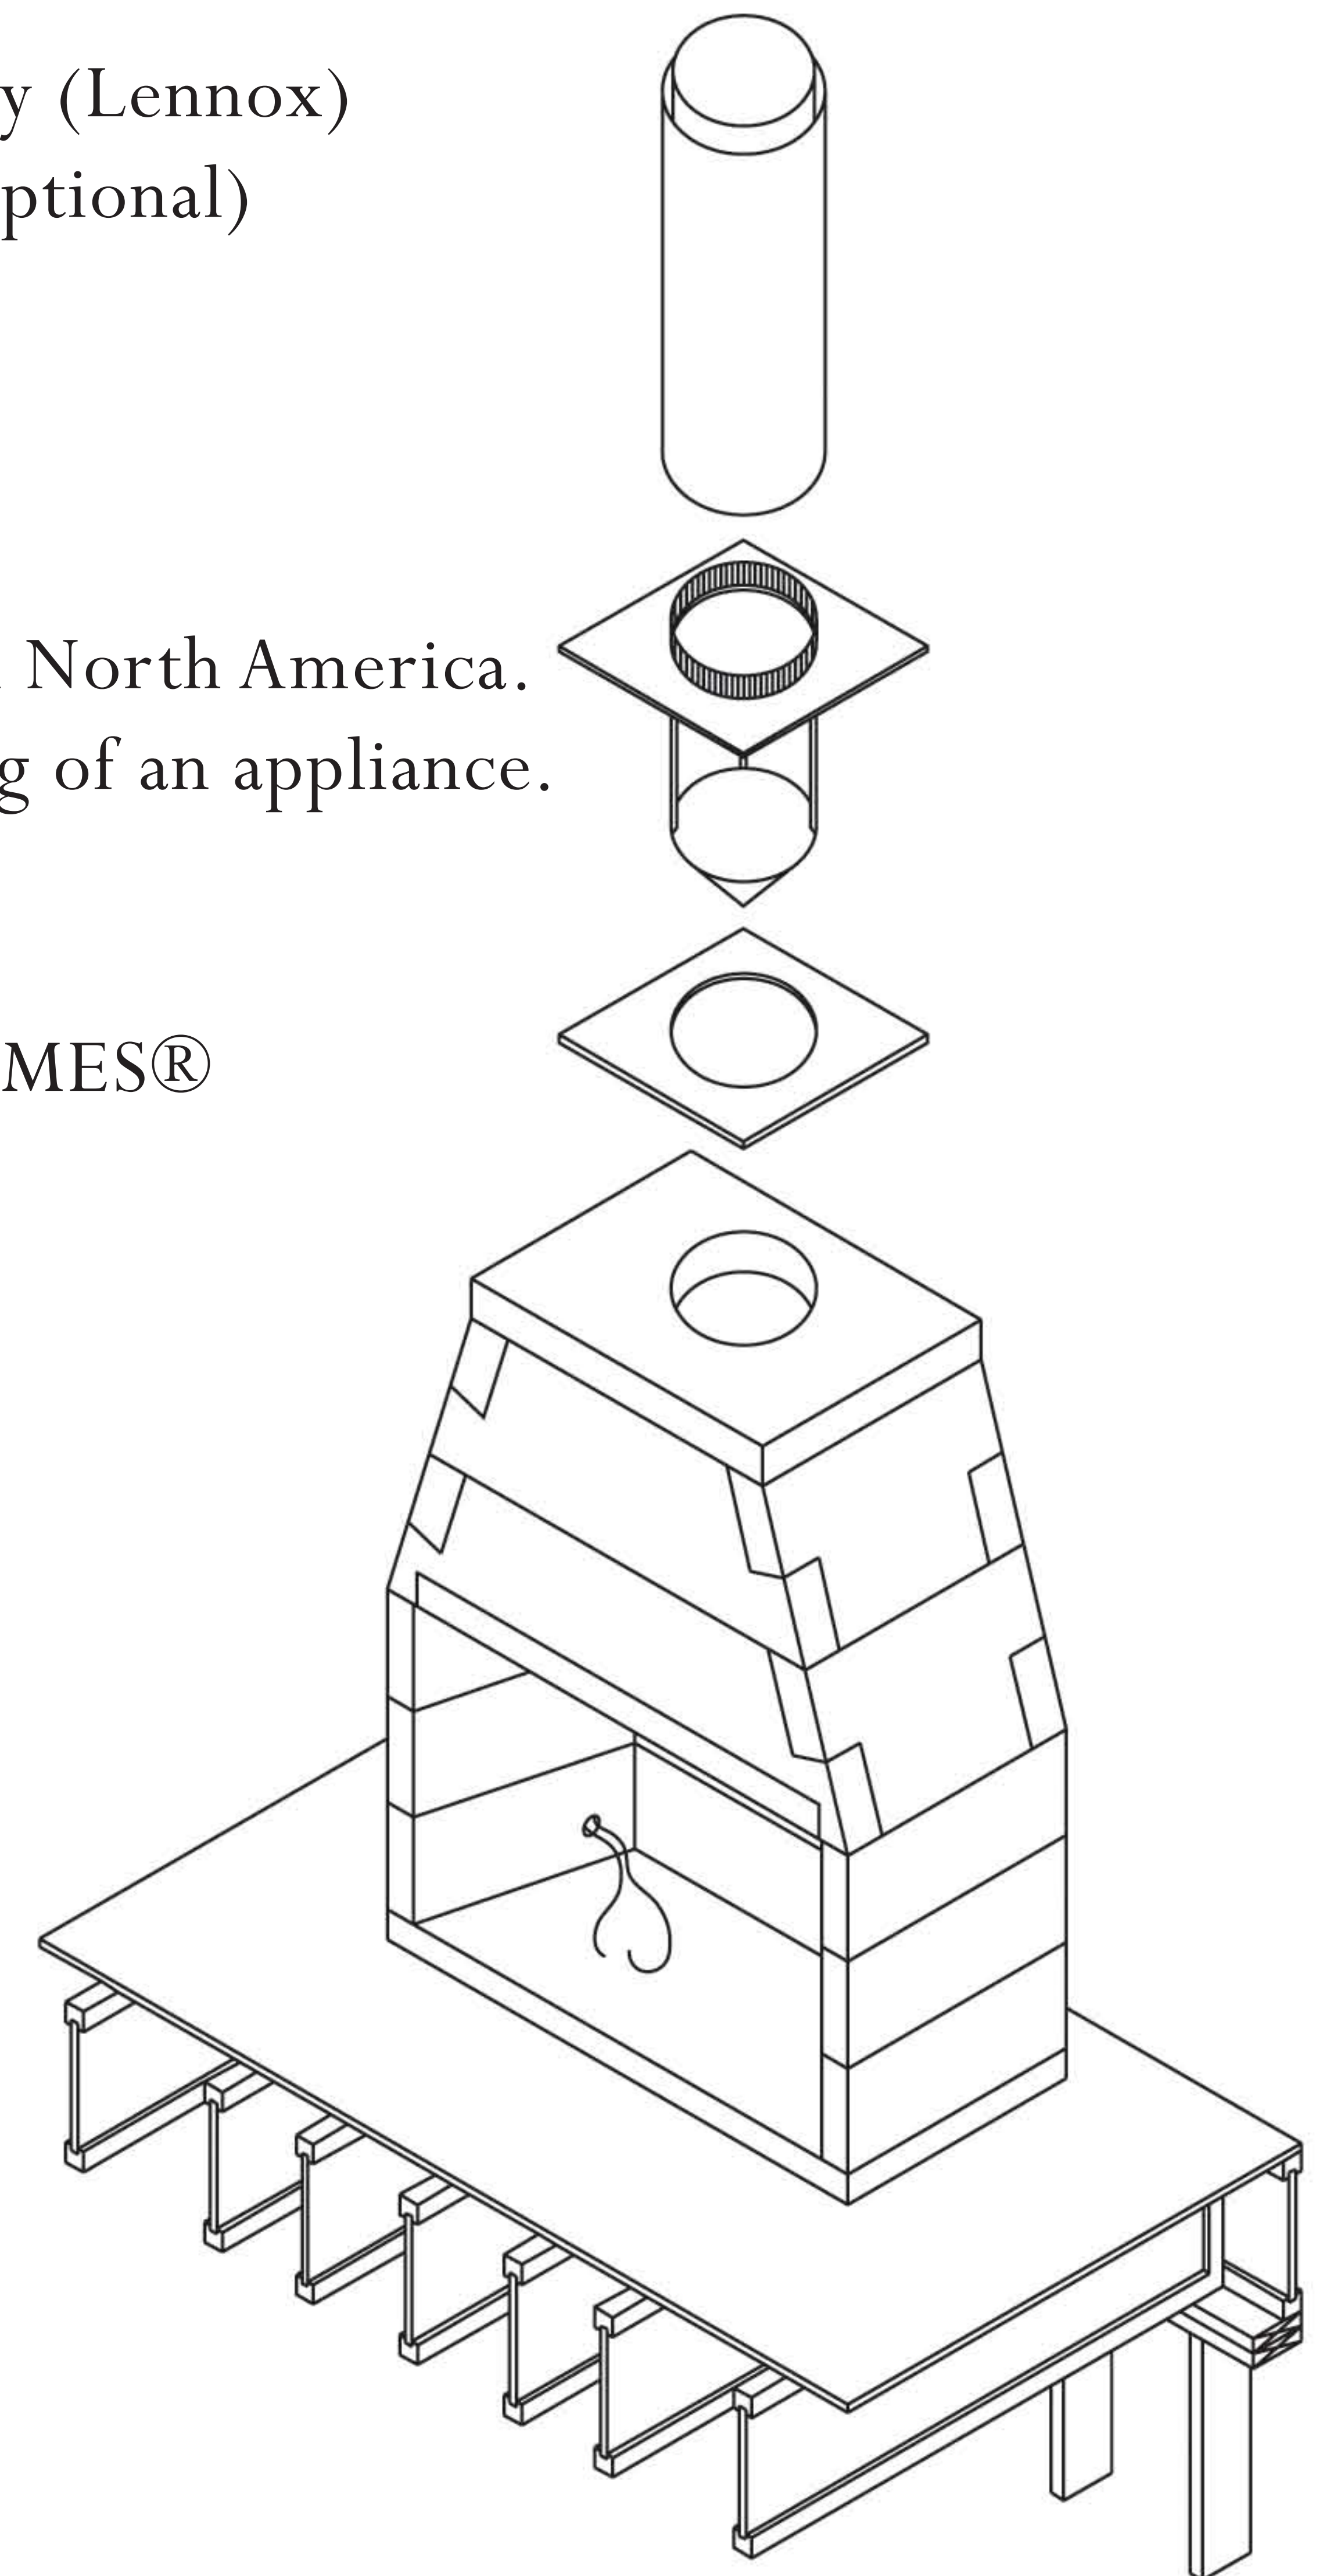

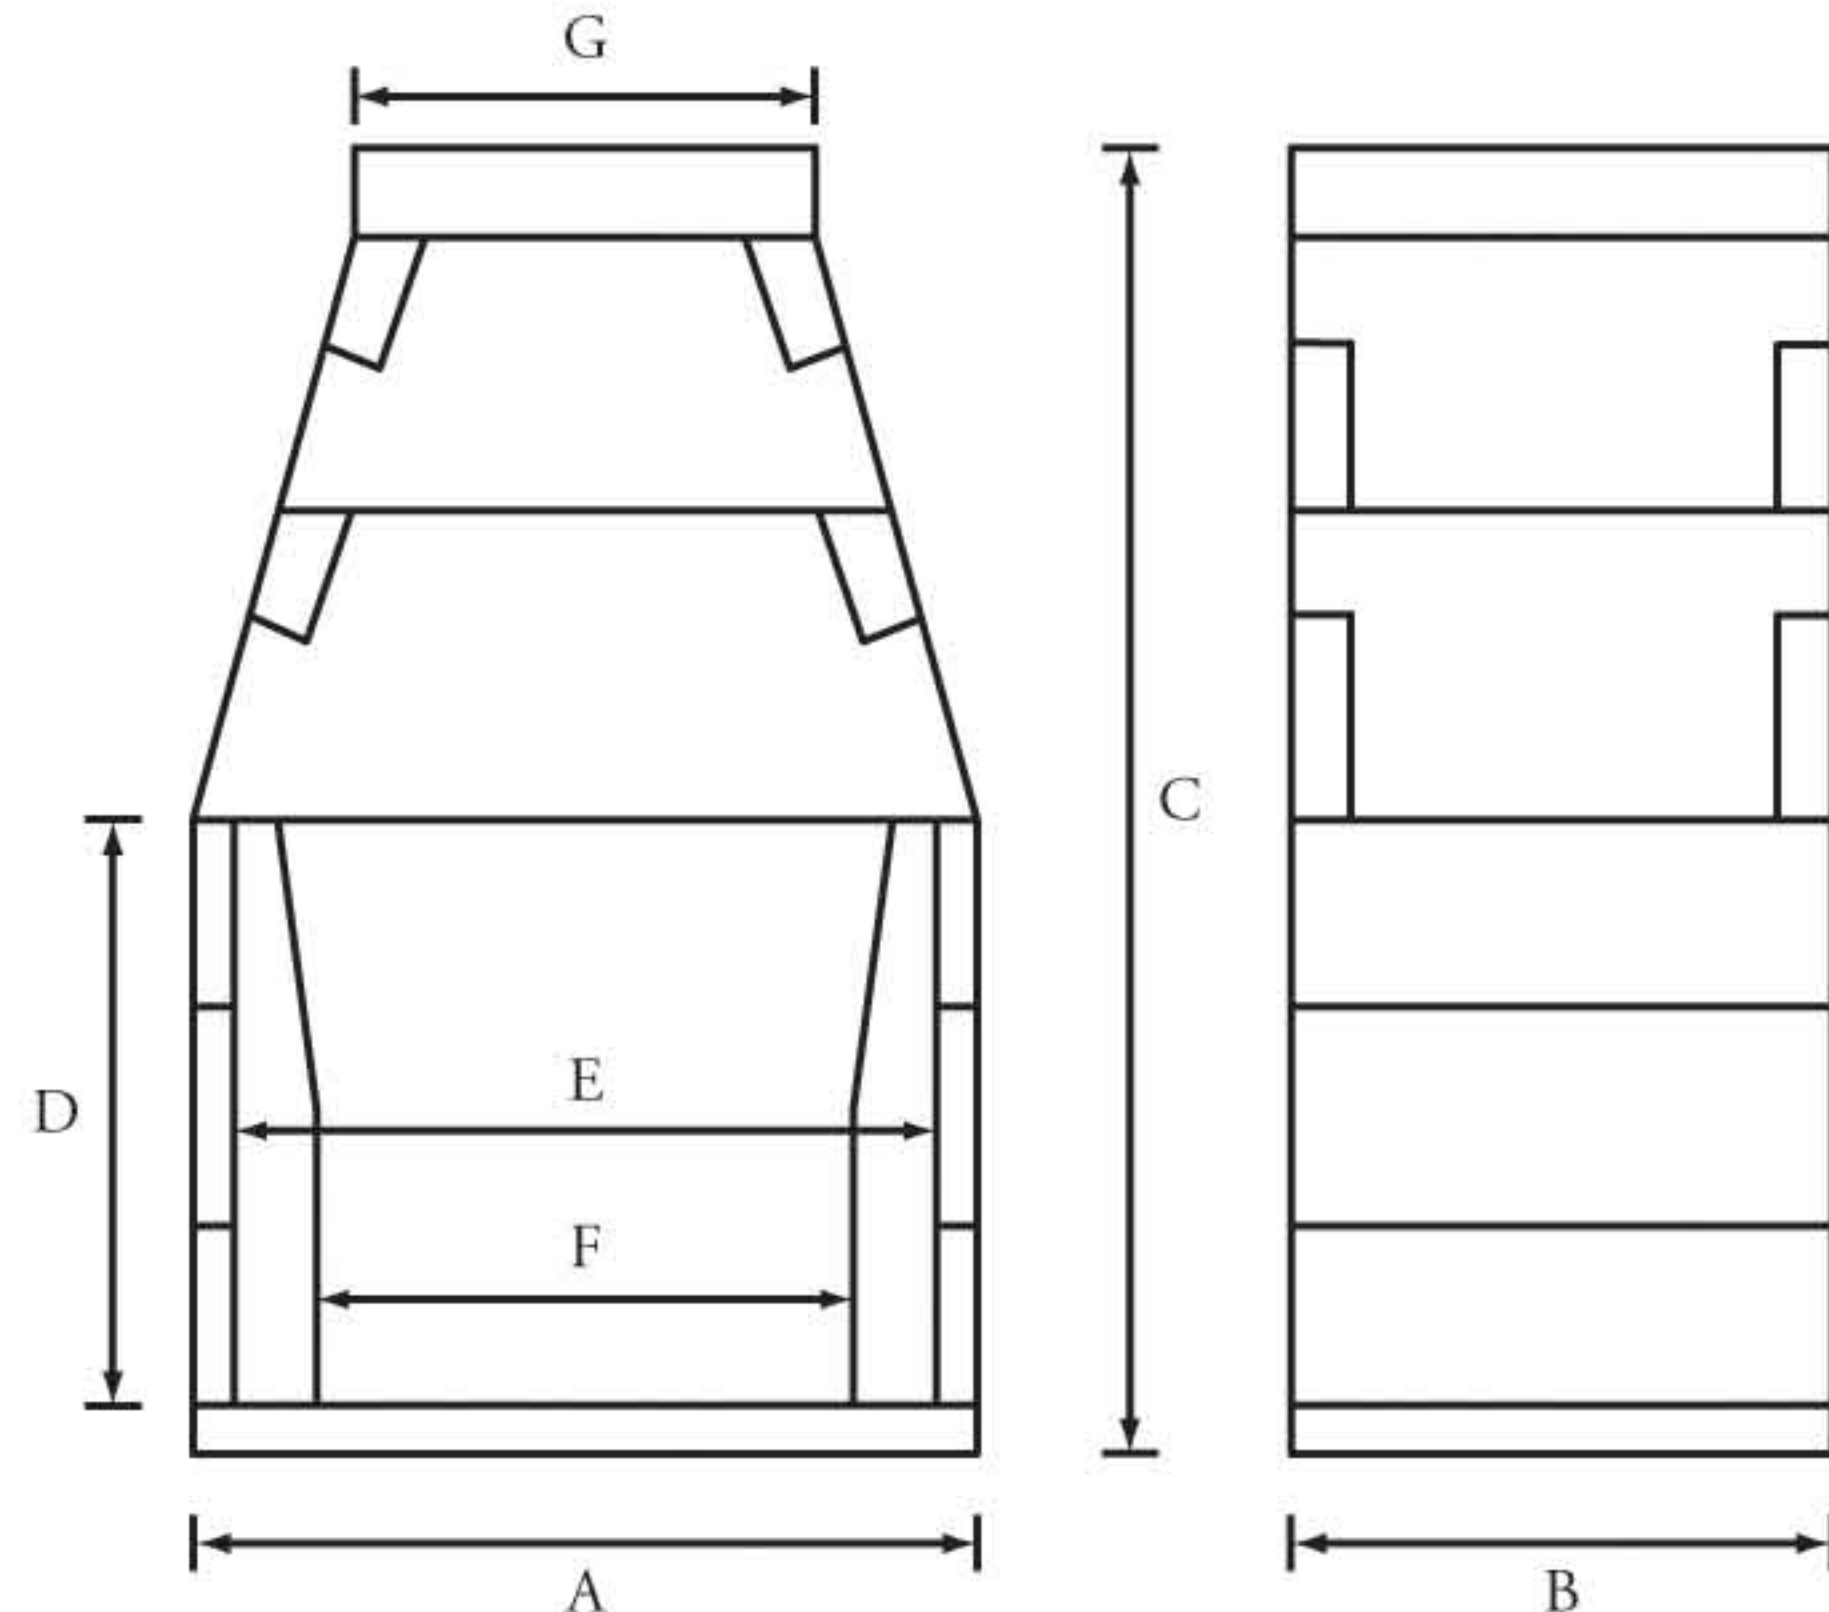

- natural gas (NG)
- liquid propane (LP)
- lightweight metal chimney (Lennox)
- electronic flue damper (optional)

Features

- The only modular, masonry vented gas (only) appliance available in North America.
- Provides the beauty of an Isokern masonry fireplace with the listing of an appliance.
- Can be installed on a combustible floor system while still meeting ANSI Z21.50 guidelines.
- A complete fireplace system that includes a realistic set of ISOFLAMES® gas logs (Open Country® four burner).
